Evolving from single-celled yellow organisms at the dawn of time, Minions live to serve, but find themselves working for a continual series of unsuccessful masters, from T. Rex to Napoleon. Without a master to grovel for, the Minions fall into a deep depression. But one minion, Kevin, has a plan; accompanied by his pals Stuart and Bob, Kevin sets forth to find a new evil boss for his brethren to follow. Their search leads them to Scarlet Overkill, the world's first-ever super-villainess.

An OpenType update of the original family, released in 2000. The update is based on Minion MM but features slight changes to the selection of instances and modifications of the font metrics. The Black weight from Minion Black Expert was not included. Each font includes the expert glyphs and dingbats that were previously found in Minion Expert package (swashes available in italic fonts only), Cyrillic Glyphs from Minion Cyrillic. In addition, the font family supports Adobe CE, Adobe Western 2, Greek, Latin Extended, Vietnamese character sets. Regular 12pt
